

Annual Dayton REALTORS® Foundation Partner

Everyone can contribute to a better future.

Our partners are grassroots focused community business and civic leaders. They give of their time and their money to ensure a better and brighter future for citizens of the Miami Valley.

We are all about communities.

In 2019, a new vision for the foundation was approved by the Dayton REALTORS® Board of Directors, wherein the foundation would serve as a facilitator of community development projects and advocate for neighborhood growth by providing consulting, project grants, and working with city, county and state leaders and officials to make lasting improvements and increase homeownership to the communities in Dayton and across the Miami Valley.

We are about smart growth.

Grants from the Dayton REALTORS® Foundation are made available to local nonprofits, cities and community groups interested in achieving results focused around improving and increasing homeownership, community amenities, and improving business development climate.

Project focuses include: Taking advantage of compact building design, creating housing opportunities, fostering attractive community spaces, studying and improving transportation options, and assisting in studies and actions to improve resident wellness.

We want you to be involved.

Our partners give of their time and their money to ensure a better and brighter future for citizens of the Miami Valley. They share our belief that all citizens deserve the right to live with dignity, not dependence. Here at the Dayton REALTORS® Foundation, we refer to our donors as partners because giving to the foundation is about more than just a financial contribution. To learn more, contact Madison Stapleton at 937-610-1447 or email mstapleton@dabr.com.

Dayton REALTORS® Foundation is a publicly supported organization as described in section 501(c)(3) of the Internal Revenue Code and our Taxpayer Identification Number (TIN) is 31-0728721. No goods or services were received in consideration of such donation.
